

As CEO of BHI Senior Living Inc., it is my great privilege to introduce you to our organization. With deep roots in Indiana, BHI is committed to enhancing the quality of life for every person associated with us — from residents and their families to the loyal, dedicated staff members at each of our communities.

As a faith-based, non-profit organization, our first priority is always to do what is best for the people we serve. We believe in responsible stewardship of resources — from making sure all of our communities are consistently maintained and updated, to employing the sound financial practices that have made BHI one of the most well-respected, financially stable senior living organizations in Indiana.

When you choose to make your home at a BHI community, you have the assurance of knowing that the same community and amenities you have chosen today will still be here for you tomorrow — and that you will be cared for by people who are committed to your well-being.

Thank you for your interest in BHI. Please explore our website to learn more, then visit a BHI community near you to see for yourself the difference BHI makes.
